

UPDATE FROM THE ASSOCIATION OF SOUND DESIGNERS

# THE HERALD

## The June Herald

This month, we're trying something a bit new with the Herald, with our first Herald exclusive article. These articles will focus on the many exciting gadgets we get to play with (budget permitting) rather than the Echo's focus on the process of sound design. If anyone feels that they have an article of this sort they'd like to write - a review, a shoot-out, new technological developments, let us know at

## uct News

This month's big news is the release of [ProTools 11](#); and, like all major version updates, there are compatibility excitements to contend with!

If your idea of fun involves CAD packages, there are new system control and room prediction offerings from [Meyer](#) and [Duran Audio](#)... We also have a couple of reserve places left on our [VectorWorks](#) course at the end of July.

BOOM have some [lovely horses](#) for your listening pleasure, Rhythmic Robot have released a synth for the [soundscape inclined](#), and Plogue have released [chipcrusher](#), which can make your top-of-the-line sound system sound like the 5p transducer in a PC case!

## In other news... Hippies and Compression Drivers

As you ponder which brand of loudspeaker to use in your latest audio spectacular, spare a thought for your predecessors - [things weren't so easy in the sixties!](#)

## Facebook

We've had a good response to our new [Facebook group](#) for members - if you haven't joined already [visit here](#) and click the "Join Group" button. If you have any thoughts on the group, especially if there are things you'd like more coverage of in the news feed, let us know at [news@associationofsounddesigners.com](mailto:news@associationofsounddesigners.com)
